## **Film Synopsis**

Filmmaker Susan Kucera captures the story of a blind man's journey into the intoxicating, complex world of Argentine tango and explores the impact tango has had on the lives of professional tango dancers, teachers, performers, and enthusiasts. In the end, beyond the fancy footwork, beautiful dresses, high heels, and dazzling performances, tango is about discovering of oneself. Shot on location in the United States (Hawai'i, New York, Seattle, Portland), the Czech Republic, Germany, and Canada, For the Love of Tango reveals how we can communicate with one another beyond all barriers of race, language, age or physical limitations.
